Advocacy for the Sea Services: Special Operations training in Western Washington

As part of our mission to support the Sea Services, we periodically inform our members about issues affecting the Sea Services and opportunities to advocate for them. We sent you an email on December 30 about the opportunity to comment on the Navy's long-standing request to expand Naval Special Warfare (SEAL) cold water training locations within the Puget Sound area to a total of 28 Washington State Parks.

The Washington State Parks and Recreation Commission Bulletin, including information regarding this request and an electronic form to use for comment, can be found at: <http://bit.ly/ParksSEPA>. **The deadline for comments has been extended to January 22, 2021.**

We need as many people as possible to submit a statement supporting this important Navy training, which has less impact on the parks than that of regular visitors. The following points can also be mentioned in your comments:

- Specialized training for Naval Special Warfare Operators is vital to their safety and our national security.
- The Puget Sound area provides a unique cold-water environment for this training, including extreme tides and shifting currents.
- This training has been taking place without incident for decades in five Washington state parks per agreement with the Parks and Recreation Commission.
- The purpose of the training is to approach land from the water, hide, and remain undetected, leaving no trace of their presence. This proposed expansion to additional state parks will increase the variety of water conditions and terrain available for the trainees and reduce the use of individual parks.
- The Navy will continue to abide by all environmental and safety regulations, and will continue to exercise strict training policies to limit unintentional interaction with the public.

Thank you for your support!

Drop in for our first monthly social of the year on **Thursday January 28** anytime between 7 and 8pm via Zoom at [Navy League Seattle January Social](#) with your favorite beverage in hand! Share stories and talk about plans for the holidays and our winter events.

In the meantime, please take care of yourselves and stay healthy!

"FROM THE HELM"

Greetings, members and friends of Seattle Navy League, and happy new year!

As you know, during 2020 the ongoing pandemic and its unique challenges cancelled our customary council dinner meetings and the Seafair Fleet Week ship visits to Seattle. As an alternative, we produced our own "virtual" Fleet Week 2020; it continues to be accessible at <https://www.seafair.org/p/events/virtual-fleet-week> should you wish to view again or share with friends and family.

Our first big event for 2021 will be the (virtual) Annual Meeting on February 24. This will be an opportunity to enjoy each other's company, hear an update from the Commander of Carrier Strike Group 3, and look ahead to the rest of the year and the eventual return of in-person council gatherings and events. Mark your calendars - I look forward to seeing you there!

And please join us Thursday January 28 between 7 and 8pm for our next virtual monthly social.

In the meantime, please stay healthy and keep yourselves safe!

regards, Steve Keith

The Navy League was founded in 1902 with a clear three-pronged mission: to support the members of the sea services and their families; to educate the American people and their elected leaders about the critical importance of sea power for their economic prosperity and national security; and to help build America's future through successful youth programs like the Naval Sea Cadet Corps.

The Seattle Navy League thanks you for your interest in the Sea Services and our council's activities.
